## NATIONWIDE SUPPORT

Guitar Center Professional has experienced account managers and support staff who are highly qualified experts in all aspects of professional audio, video and lighting technology. They can assist any size organization, from small private studios and businesses to the largest production facilities and corporate installations.

## OUR NETWORK

In addition to Guitar Center Professional's account managers, you get the benefit of working with our network of professional installation specialists who can help with the entire process of putting together a system from the ground up, including architecture, installation, technical consultations and much more.

## OUR PROMISE

Guitar Center Professional is committed to bringing you the very best in products and design/installation services for your audio, video and lighting needs. Hundreds of businesses, houses of worship and producers and engineers from across the country have benefited from Guitar Center Professional's industry-leading expertise, as well as access to the finest audio, video, lighting and other products at the lowest prices, with excellent financing programs available.

BUSINESS SOLUTIONS

Over the past fifteen years, Guitar Center Professional has become a trusted resource for houses of worship looking to upgrade their audio, video, lighting and broadcast systems, or to build entire new worship environments from the ground up. We offer local account managers who can come to your worship facility and specify personalized solutions, coordinate installation of your new systems, and even help with training at every level.

Grace Family Church in Lutz, FL

The Chapel in Tarpon Springs, FL

## Account Managers Nationwide

A representative can visit your location for a free consultation to evaluate your needs and help determine the best solutions in person.

## A Complete One-Stop Resource

Guitar Center Professional offers a single point-of-contact for product purchases, systems training and installations.

## Financing and Leasing Options

We work with companies who specialize in financing for commercial and private owners, and understand their unique needs and challenges.

## Professional Advantages

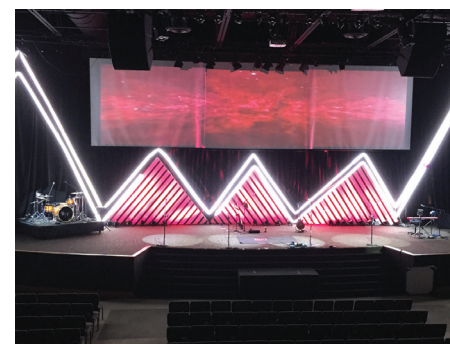

Guitar Center Professional is much more than an audio gear resource. Our experts can help you with your system design, construction and product installation.
