FRONT OF HOUSE BUNDLES

PREMIUM PRO Front of House System (Tier 3/Highest Price Point)

Many venues and houses of worship need systems that are powerful in their sonic shaping and routing tools, while remaining easy to set up, intuitive to use and scalable as needs grow. Behringer has met this demand with the WING 48-channel digital mixer. With eight onboard Midas Pro mic preamps, 24 motorized faders, FX processing, audio interface and DAW control capabilities, and AES50 networked expansion connectivity, it's never been easier to scale your front of house needs. Our PREMIUM PRO package is a perfect solution for medium-to-large houses that commonly host, stream and record full bands. Utilizing AES50 networked audio capabilities, this system makes it simple to set up 32 remote-controllable mic preamps and 16 line-level outputs from the console location to the stage. The bundle comes complete with one Behringer WING 48-channel digital mixer, two Behringer S16 stage boxes, two 100' ProCo EtherCon cables, as well as two road-ready Gator G-Pro molded cases.

10% BUNDLE SAVINGS

- Hardware Package: ~~\$5,637.94~~ **\$5,074.15**
- Digital Audio Workstation Add-On: ~~\$3,790.94~~ **\$3,411.85**
- Complete System: **\$8,485.99**

PLUS PRO Front of House System (Tier 2/Middle Price Point)

Our PLUS PRO front of house package is a perfectly tailored compact solution for any venue or house of worship with 16 mic inputs and eight line returns at the stage or altar. This package is comprised of one Behringer WING 48-channel digital mixer, one Behringer S16 stage box, one 100' ProCo EtherCon cable as well as a road-ready Gator G-Pro molded case. If your future needs expand, adding additional inputs from the stage is as simple as adding another S16 or S32 stage box and connecting an additional ProCo EtherCon cable. It's a great solution for small- to medium-sized facilities, leaving room to grow if the need arises.

10% BUNDLE SAVINGS

- Hardware Package: ~~\$4,614.97~~ **\$4,153.47**
- Digital Audio Workstation Add-On: ~~\$3,790.94~~ **\$3,411.85**
- Complete System: **\$7,565.32**

STANDARD PRO Front of House System (Tier 1/Lowest Price Point)

Our STANDARD PRO front of house package is the optimal all-in-one solution for any house of worship or venue with eight microphone inputs or fewer. Being that the system is centered around the Behringer WING 48-channel digital mixer, adding additional stage audio connectivity is as easy as adding a Behringer S16 or S32 stage box. An excellent console for front of house operations, as well as streaming and recording.

10% BUNDLE SAVINGS

- Hardware Package: ~~\$3,592.00~~ **\$3,232.80**
- Digital Audio Workstation Add-On: ~~\$3,790.94~~ **\$3,411.85**
- Complete System: **\$6,644.65**

Complete system prices include \$395 for turnkey workstation setup by Guitar Center Professional engineering. In addition to included gear, there are optional add-ons to optimize each system to your specific needs. To ensure bulletproof functionality and quick deployment, we also offer technical services, including system design documentation and remote login support and training. For add-ons and service estimates, please inquire with your Guitar Center Professional account manager or engineer.
